INDEPENDENT AUDITORS' REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

The Board of Directors
Nass Corporation BSC
P.O. Box 669
Manama
Kingdom of Bahrain

15 November 2020

Introduction

We have reviewed the accompanying 30 September 2020 condensed consolidated interim financial information of Nass Corporation BSC (the "Company") and its subsidiaries (together the "Group"), which comprises:

- the condensed consolidated statement of financial position as at 30 September 2020;
- the condensed consolidated statement of profit or loss and other comprehensive income for the nine-month and three-month periods ended 30 September 2020;
- the condensed consolidated statement of changes in equity for the nine-month period ended 30 September 2020;
- the condensed consolidated statement of cash flows for the nine-month period ended 30 September 2020; and
- notes to the condensed consolidated interim financial information.

The Board of Directors of the Company is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 September 2020 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

for the nine months ended 30 September 2020**

Bahraini Dinars '000

1 REPORTING ENTITY

Nass Corporation B.S.C. (the "Company") is a public shareholding Company listed on the Bahrain Bourse incorporated and registered in Bahrain on 9 March 2006 under commercial registration number 60037.

The Company and its subsidiaries ("the Group") are mainly engaged in civil engineering, mechanical and electrical contracting, manufacture and supply of manpower to related contracting activities. It is also involved in the sale of ready mixed concrete, ice blocks, spare parts, foodstuff, and general trading and undertakes contracts relating to precast concrete and water supply.

The condensed consolidated interim financial information ("interim financial information") as at and for the nine months period ended 30 September 2020 includes the results of the Company and its subsidiaries (together referred to as the "Group").

2 BASIS OF PREPARATION**a) Statement of compliance**

The condensed consolidated interim financial information have been prepared in accordance with IAS 34 – '*Interim Financial Reporting*'. These do not include all the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual consolidated financial statements as at and for the year ended 31 December 2019.

The condensed consolidated interim financial information are reviewed, not audited. The comparatives for the condensed consolidated statement of financial position have been extracted from the audited consolidated financial statements for the year ended 31 December 2019 and comparatives for the condensed consolidated statements of profit or loss and other comprehensive income, cash flows and changes in equity have been extracted from the reviewed condensed consolidated interim financial information for the nine month period ended 30 September 2019.

b) Judgments and estimates

The preparation of condensed consolidated interim financial information requires the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The areas of significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the last audited consolidated financial statements as at and for the year ended 31 December 2019. However, the process of making the required estimates and assumptions involved further challenges due to the prevailing uncertainties arising from COVID-19 and required use of management judgements.

Expected credit losses

The economic uncertainties caused by COVID-19, and the volatility in oil prices impacting the Middle East economic forecasts have required the Group to update the inputs and assumptions used for the determination of expected credit losses ("ECLs") as at 30 September 2020. ECLs were estimated based on a range of forecast economic conditions as at that date and considering that the situation is fast evolving, the Group has considered the impact of higher volatility in the forward-looking macro-economic factors, when determining the severity and likelihood of economic scenarios for ECL determination.

**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION
for the nine months ended 30 September 2020**

Bahraini Dinars '000

c) Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the last audited consolidated financial statements for the year ended 31 December 2019, except as described below:

- Credit risk

The Group has taken pre-emptive measures in the current situation to mitigate credit risk by adopting more cautious approach for setting credit limits for individual customers and enhanced monitoring of outstanding receivables.

- Operational risk management

The management of the Group has enhanced its monitoring to identify risk events arising out of the current situation and the changes in the way business is conducted and carried out a comprehensive review of the existing control environment. While these risks cannot be completely eliminated, the management is of the view that the Group did not have significant issues related to operational risks.

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and risk management framework applied by the Group in the preparation of the condensed consolidated interim financial information are consistent with those applied in the preparation of the last audited consolidated financial statements as at and for the year ended 31 December 2019 except as below.

Government grants

In accordance with IAS 20, the Group has recognised government grants in profit or loss on a systematic basis in the periods in which compensated expenses are recognised.

4 SEASONALITY OF OPERATIONS

Due to the nature of the Company's business, the results reported in the condensed consolidated interim financial information may not represent a proportionate share of the overall annual results.

5 APPROPRIATIONS

Appropriations for the current year if any, will be made at the year end. At the Annual General Meeting (AGM) for the year 2019 held on 29 April 2020, the following appropriations were approved which have been effected during the period:

- a final dividend of BD Nil (2018: BD 1,075 - 5 %); and
- transfer to donation and charity reserve of BD Nil (2018: BD 30).

Directors' remuneration of BD Nil (2018: BD 92) was charged to profit or loss and approved by the shareholders at AGM.

12 FAIR VALUE AND CLASSIFICATION OF FINANCIAL INSTRUMENTS**a) Fair value**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

None of the Company's financial assets and liabilities is measured at fair value. The carrying value of the Company's financial instruments approximate their fair value due to their short-term nature.

b) Classification

All of the Company's financial assets and liabilities are classified and measured at amortised cost.

15 IMPACT OF COVID 19

On 11 March 2020, the Coronavirus (COVID 19) outbreak was declared a pandemic by the World Health Organization (WHO) and has rapidly evolved globally. This has resulted in a global economic slowdown with uncertainties in the economic environment. Global equity and commodity markets have also experienced great volatility and a significant drop in prices. Authorities have taken various measures to contain the spread including implementation of travel restrictions and quarantine measures. The pandemic as well as the resulting measures and policies have had some impact on the Group. The Group is actively monitoring the COVID 19 situation, and in response to this outbreak, has activated its business continuity plan and various other risk management practices to manage the potential business disruption on its operations and financial performance.

The management expects that the forecasted revenue and net profit for the year 2020 will be affected by disruption in progress of work at project sites due to lockdown and adoption of various preventative measures like social distancing etc.

Governments and central banks across the world have responded with monetary and fiscal interventions to stabilize economic conditions. The Government of Kingdom of Bahrain has announced various economic stimulus programmes ("Packages") to support businesses in these challenging times. The Group has received BD 2,361 from these Packages mainly in the form of reimbursement of salaries of Bahraini employees, temporary waiver of Electricity and Water utility bills, LMRA and work permit renewal fees for 6 months ended 30 September 2020.

The management and the Board of Directors (BOD) has been closely monitoring COVID 19 developments and its impact on the Group's operations and financial position; including possible loss of revenue, impact on asset valuations, impairment, review of onerous contracts and debt covenants, outsourcing arrangements etc. The Group has also put in place contingency measures, which include but are not limited to enhancing and testing of business continuity plans including its liquidity requirements. Based on their assessment, the BOD is of the view that the Group will continue as a going concern entity for the next 12 months from the date of this condensed consolidated interim financial information.
